

CLEAR WAYLUBES

USDA APPROVED SULFUR FREE SLIDEWAY LUBRICANTS

Description

Clear Waylubes are water white, environmentally friendly food grade slideway lubricants. They are formulated to provide superior lubrication for industrial ways and any application where an adhesive tacky “clean” lubricant is required. These products were developed to provide outstanding anti-wear and rust protection in the presence of moisture. Clear Waylubes are sulfur free and non-foaming. Due to the products’ sulfur free nature, Clear Waylubes help to control and limit bacteria growth in machine sumps.

Applications

The high load carry capacity and excellent rust protection makes Clear Waylubes an excellent candidate for industrial slideways that require environmentally qualified products. The USDA has approved Clear Waylube Way Oils under H-1 Specification for incidental contact with food. All oils comply with FDA guidelines for food contact listed in CFR Title 21 Part 18, Section 178.3570.

Health & Safety

See the most recent MSDS which is available directly from Precision Fluids, your local salesman, or authorized distributor. Precision Fluids uses only raw materials not listed as carcinogenic by IRAC.

Properties

Product Name	Clear Waylube Way Oil 68	Clear Waylube Way Oil 220
Viscosity @ 40°C, cSt	68.25	226
Viscosity @ 100°C, SUS	9.35	21.5
Flash Point, °F	+475	440
Pour Point, °F	5	10
Gravity, API	31	29.6
Specific Gravity	0.87	0.87
Color, ASTM	0.5 max	0.5 max
