

SHIELD PF-714

INDOOR/OUTDOOR HIGH QUALITY RUST PREVENTATIVE

Description

Shield is a fast drying, solvent based coating and rust preventative. This product may be easily removed with an alkaline degreaser or mineral spirits. Shield is ready to use product for use on pipe, metal parts, equipment and machinery. This product is excellent for short or long term storage, and for general protection of metallic surfaces. Easily applied or removed. Shield provides a soft finish that actually melds back for complete protection should parts become nicked or scratched.

Features & Benefits

- Flexible and weldable for a variety of uses
- Excellent for protecting materials while in transit
- Provides indefinite indoor protection and up to 2 years outdoor protection
- Highly effective on tools, wire, dies, bearings, wire cloth, machined parts, pipe threads, castings, and jigs and all metal surfaces where rust prevention is required
- Equally effective preventing outdoor corrosion due to salt spray on cables, hoists, pulleys, winches and riggings

Physical Data

Appearance: Transparent Liquid
Color: Amber

Application

Spray, dip or brush on to a clean, scale and rust free surface.

- Sets up to hard yet flexible coating in 2 hours.
- Apply one coat for indefinite indoor and 6 month outdoor protection.
- A second coat will protect up to 2 years outdoors.

Health & Safety
