

SUPER GREEN PF-255

HIGHLY EFFECTIVE MACHINE & SUMP CLEANER

Description

Super Green is a concentrated cleaner designed for purging machine sumps of impurities as a normal maintenance procedure or when charging system with a new or fresh coolant.

Features & Benefits

- Purges system of bacteria food source
- Reduces cleaning time
- Extends sump life
- Contains corrosion inhibitors and conditioners

Health & Safety

See the most recent MSDS which is available directly from Precision Fluids, your local salesman, or authorized distributor. Precision Fluids uses only raw materials not listed as carcinogenic by IRAC.

Physical Data

Appearance Neat:	Liquid
Color:	Green
Lbs/Gal:	8.6
Flash Point:	None

Application

Brush or spray over all areas of machinery requiring purging where coolant contact may occur. Super Green is very effective when circulated through coolant system.

- Interior machine cleaning: pump out old coolant, add one gallon of Super Green to twenty gallons of fresh water and circulate system for twenty minutes with coolant lines open. Pump out dirty solution and flush system with clean water before charging with fresh coolant. This procedure will clean unattainable areas of the system, coolant lines and nozzles.
- Exterior machine cleaning: Dilute 20:1 with water.
 1. Spray on, wipe off
 2. Mop on, mop off
 3. Wipe on, wipe off
